This is the first novel in an action fantasy series, set in Audec-Hal, a city built among the bones of a dead titan - where an aging revolutionary strikes a bargain with his most dangerous foe to tip the balance of power and free Audec-Hal. And glad am I that I did.

I was especially fond of Sapphire, one of an engineer's race that was freed by an aging revolutionist, he continues to fight increasingly desperate battles in order to save the city from a number of antagonists. I've read several of this author's books, and what I appreciate most about his writing is the research he does into his subject. I continued the lessons in Indianapolis where I was a manager.
