It is a proposal that deserves to be considered seriously. One of the more famous examples of this is used by Kline in a highly unusual way. Related resource Table of contents at <http://AnIndexforComplexity5>. This in itself is a major contribution. Stanford University Press, The root of the problem, I believe, lies in the fact that Kline made an insufficiently bold approach, George Mason University "Refreshingly bold in his approach, the author is not merely concerned with the "advantages" or "attractiveness" of multidisciplinary approaches to contemporary problems. The book is written in an accessible style that is far from dry and, without sliding into flippancy, pithy humour is evident .
