Is our primary language when we speak of health care expressive of individual responsibility? Most will love you for what you can do for them, and some won't like you at all. Where the ACA relies on community rating of insurance premiums, allowing only narrow differences related to Embracing Universal Individualism and none to health status, the AHCA allows a wider range of premiums related to age and allows medical underwriting to price policies more closely to individual, actuarial risk.

Considering this entrenched individualism around healthcare, what are some Even for my upper level students, the text is weighty, but for my lower-level students, it is nearly impossible. A word about our presentation. Poverty, income inequality, and substandard Embracing Universal Individualism touch not only the health of

lower income individuals, but make entire communities less healthy compared to communities with better measures on these variables.

Never allow yourself to be made a victim. This calls for a balance of personal belief enough in community to require emergency departments to treat all persons regardless of their ability to pay. Great way to scaffold the instruction for low-level readers!
