Written by two distinguished cardiologists, this book explores the biochemistry of our lives at the cellular level: Would you like to tell us about a lower price? Mitochondria, telomeres, longevity genes, adult stem cells, and cell protection mechanisms keep us healthy for many decades, but they are not infinitely renewable.

Page 1 of 1 Start over Page 1 of 1. I like this book, very informative. Read on, you are not. There was a problem filtering reviews right now. Using stories and examples, the authors guide us through our bodies at the cellular level. all 3 reviews. Learn more about Amazon Giveaway.
