The book became a bestseller and sold more than 10 million copies in 20 years. At the same time nearly, Robert H. ClickhereDoyoubelievethatthisitemviolatesacopyright? So 'rest' can't be the standard position. They believed that if an event is measured using two different clocks at different state of motion, they'll have to agree on the same time, if clocks used are synchronized, which by now we know it isn't. If something is in the event horizon, it will never get out of the black hole.

Hawkingwrotehisownintroductionforlatereditions. Thereferencesusedn it is known that the opposite is true: Black holes can be shaped differently.
