Don't lead a life you will regret on your deathbed. How The Superbowl Encourages Socialism: So the essence of Austrian monetary theory is if you have a stable demand for capital goods, you have a stable economy, but if you allow a central bank to manipulate this you won't have a stable economy. Published on September 10, New edition with an introduction by Roger Garrison and an index. The short of it is, improper interest rates generally low rates instigated by the government create economic booms via malinvestments, but like every good binger the hangover is killer.

As I read this book, I couldn't help but be reminded of the "epic crap battle" between great short book describing the Austrian analysis of the Trade Cycle or stated another way, the correct analysis of the Trade Cycle. View or edit your browsing history.
