I usually give my DNF books 1 star but I kind of sort of feel like I read this one I truly enjoyed Mirage and will definitely read the second book in the series.

Snowed In with the Billionaire. My biggest complaint is the ending.

We are thrown into a world with 4 college students, two sets of best friends, Mi. After tragedy strikes this group of friends try to move on with their life. I so did not see THAT coming. It's like you smushed every guy, emotion, story, and rolled it into one amazing story that will leave you with the biggest hangover you have experienced. I was like Umdude The time jumps within the novel also require this dual point of view so that the reader can catch up to what has been going on in each characters life. Until tragedy strikes and only three of them are left to pick up the pieces and try to move on.
