National Center for Biotechnology InformationU. There are many resources to help you broach tough topics, including The Conversation Project and a game called My Gift of Gracein which players answer questions about living and dying. Ask doctors what to expect, how to manage the side effects and when to call for medical help.

A cancer diagnosis can take a toll on families and stir up all kinds of emotions. AARP developed these resources guides with you – the caregiver – in mind as a starting point to help you find the services and support you need throughout your caregiving journey. Find out if your loved one has a. Patient-centered home care is a new model of assistance, which may be integrated with more traditional hospital-centered care especially in selected groups of informed and trained patients.

Don't rely on alcohol or drug to reduce stress. Moreover it should be considered that emotional and psychosocial aspects play a pivotal role since cancer patients often feel more comfortable and secure being cared for at home.
