The sheer amount of cock, even for the sci-fi genre, is spafftacular. Farcical in places with a whole raft of ridiculous characters it draws parallels with the slave trade and the fight for equality.

Excellent book using Sci-fi construct of time dilation to show futility of war.

The story got it all: I first read it a couple of times in my late teens and enjoyed it enormously but it was three years later before it's true brilliance dazzled me.

It's scary, funny and unusually for PKD it's got a lot of heart. Coelestis is not a comfortable read.
