The screenshot below shows a new instance of the Country object being created in Manage Generic Objects. After 4 months they need to be removed and you get another surgery – and you are ill in the course of this surgery for another 2 months, cause again, you barely can walk, need some cure. OneAdmin provides multiple options for managing different types of Metadata Objects.

Create, modify, and delete holiday calendars ManageConfigUI: Soft skills Germans shall bring in to be successful in Japanese Project Teams. It is important to note that the process does need managing so as to not create duplicate or unnecessary objects. One quick question After Q2 in Managers Team calendar view can managers see different colour for different absence types.

But can you please tell me whether there is some separate configuration steps
Luke Thanks for the insight. We appreciate your feedback.
